Introduction

Puli Inu's Introduction

Secured

An audited smart contract, no big dev holdings, Liquidity locked for 5 years.

Rewarding Holders

Hold your **\$PULI** and stake them in Pulimatic! Our All-In-One Platform for crypto enthusiasts.

Fair Construction

With a combination of **burning**, **LP filling** and **big marketing**, we are set to make huge impact.

Puli Inu's Whitepaper
has been released for our new holders who love to game and believe that crypto is the future. With Puli Inu we are working with a P2E system connected to our Pulimatic that will most certainly change the use of the Binance Smart Chain in general.

Dev has the word

Finatic (Team Puli Inu)

First, I want to start with how incredibly proud I am to be a part of the Puli Inu development team, the teamwork that's been shown throughout these several weeks is just mindblowing. I personally think that crypto is the future and building games with a perfect system around that is something I wanted to do for a very long time.

Play2Earn connected to Pulimatic is made for us and made for Puli Inu, I believe it could totally change up the way we look at the Smart Chain and rewarding games in general.

The way Puli Inu is being made is something new to many investors and we understand that it could be something they would have to get used to, but if I could tell you all the info we have been discussing these last few weeks and show you certain concepts, you truly would not believe it, seriously.

We are in for the long ride, and we hope you are too! Building up a project step-by-step is key to our project and takes time & patience, but along the way, we update our investors as much as we can.

Thank you for taking the time to read our whitepaper. For any questions, feel free to ask me on Telegram or the rest of Team Puli Inu.

Tokenomics

As for our tokenomics we went with the following percentages.

TOTAL SUPPLY:
100,000,000,

4% Auto Liquidity Pool
6% Wallet Marketing

When creating and deploying the Puli Inu contract, we decided to use the already proven functional structure with LP acquisition + Burning. This contract structure has been proven to work well both to reduce potential dumps but also to be sufficiently rewarding to holders.

Also would we like to add that our marketing wallet will be used for marketing purposes only.

The Auto Liquidity Pool speaks for itself.

Puli Inu: Games

The games will be available in **Beta** mode first for our early bird investors.

In order to participate in our Beta, you need to be a holder of **\$PULI** and fill in a form that will be shared in our Telegram.

Our games will include:

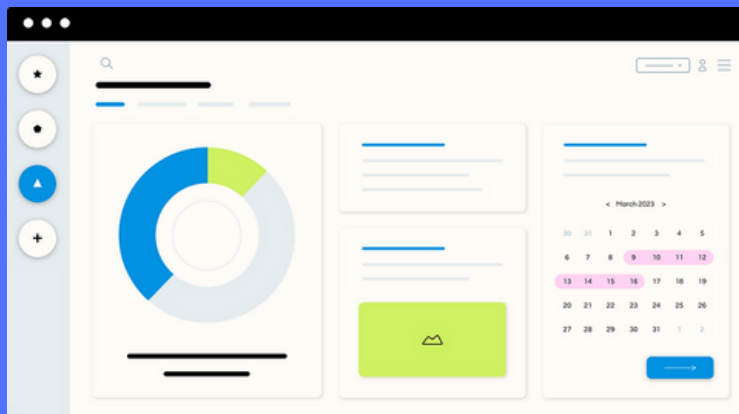

- **Adventures**
- **Challenges**
- **Survival**
- **NFT custom outfits**
- **Stores**

And much, much more!

For more information about our games, please visit our website:
www.puli-inu.com

Our future plan

For our future we will have our main focus on getting everything running smoothly with **Pulimatic**.

Connecting all of our **utilities** and **platforms** we will bring out in 2022 together, in **one application**.

Swap, Stake, Play, Chat & Earn with Pulimatic.

Keep holding as we will add more key features in, chosen by our community. That way it's not only us building, but our community too which is very important to us.

Contract & Wallets

Liquidity pool

Puli Inu has a Liquidity pool on PancakeSwap. The Liquidity pool has/will be locked for 5 years through Mudralocker.

Contract

PULI is a Smart Contract BEP20 token that is deployed on the Binance Smart Chain.

Contests & Giveaways

We'll have a 2% wallet ready, which we can use to divide \$PULI for such as contests, giveaways and much more that has to do with keeping our community interested

Audits

As for our audits, we have contacted **Techrate** to audit our current contract.

At the moment of writing, our contract is currently being audited.

Once this is done, we will update this page of our whitepaper with the link and a statement from them.
